Your enrollment in the Travel MedEvac, LLC membership plan provides you access to medical evacuation transportation arranged by Travel MedEvac, LLC according to the terms, conditions, and limitations set forth in the membership plan terms and conditions (as defined below). Your membership is not insurance. If you suffer a serious illness or injury that requires treatment when traveling and within the US (excluding Hawaii), Mexico, Canada, Central America the Caribbean, the Bahamas and Bermuda and you are more than 150 miles away from your primary residence, or if you have an Expat plan and traveling outside your foreign residence and are within our service area, Travel MedEvac, LLC will provide medical evacuation transportation from hospital-to hospital to a medical facility for continued treatment, or if you are at home and you need a “specialty transport” for treatment which is not available locally but is available at a medical facility more than 150 miles away from your primary residence, and you are a US citizen or a legal US resident (excludes Hawaii residents). All medical transportation will be arranged through our primary medical evacuation provider using only highly accredited EURAMI or CAMTS certified air ambulance companies in their extensive network of providers. Your membership plan provides air medical transportation using medically-equipped ground ambulance and fixed-wing aircraft, or commercial medical escort as appropriate, to a medical facility capable of providing treatment as follows:

Transport Services While Traveling. If you are hospitalized as an inpatient due to an illness or injury while traveling more than 150 miles from your primary residence, we will arrange for medical evacuation transportation to bring you to (i) a medical facility of your choice in the United States (excluding Hawaii) or Canada or (ii) if Travel MedEvac, LLC is unable to gain admission for you into the medical facility closest to your home hospital of choice, then

transport would be to the nearest most appropriate medical facility in the United States (excluding Hawaii), or Canada. If you have an Expat plan and traveling outside of your foreign country of residence, you may choose to be transported back to your foreign country of residence. The medical evacuation transportation will not be provided until such time as we have obtained a completed medical assessment, the transport meets other applicable terms and you have a confirmed admission to the receiving medical facility. Admission to the receiving hospital typically requires personal health insurance to be maintained and active. Repatriation from outside the United States or Canada requires proper documentation, such as a passport, visa, etc. to clear customs and is the responsibility of the member. A member and/or companion may be denied medical evacuation transportation if they are unable to provide such documentation or are denied admission to their home hospital of choice.

The sending physician, receiving physician, and our primary provider's medical director must agree that the transport to the specialty medical facility by medical evacuation transportation is appropriate and that you are stable for transport. The medical evacuation transportation will not be provided until such time as we have obtained a completed medical assessment and we have a confirmed admission to the receiving medical facility.

In the event you are provided medical evacuation transportation under the provisions of your membership, we may also arrange for transportation for accompanying passengers, subject to available space, giving priority to the medical personnel and equipment aboard for the welfare and safety of the patient. If space is not available or the welfare of the patient may be compromised, we will arrange and provide at no additional cost to the accompanying passenger a one-way ticket on a commercial flight to the closest commercial airport of the member's medical evacuation transport receiving hospital. If the accompanying passenger is traveling with the member, we will pay the difference in the cost to change their existing commercial return flight home. Membership fees are non-refundable, except for refunds due to termination of your membership by Travel MedEvac, LLC.

Your membership will be effective based on our approval of your completed enrollment application and receipt of full payment of the membership fees (the "effective date"). Depending on the type of plan you select, individual, couple/companion, family or senior plan, the term of the membership shall be noted on your membership along with the designation stipulating that the plan is either a regular travel program or expat-extended stay program, including but not limited to the following possible terms: 1-30 days, 183 days, 1-year, 3-years or 5-years from the effective date, unless earlier terminated by us. If your membership expires, we will provide a grace period for a period of 30 days after expiration of an annual membership without termination of services at the renewal rate offered to the member in advance of the end of their term, provided that you do not suffer a serious injury or illness or are hospitalized during the grace period. If 30 days have passed since renewal, a new application will be required and will be offered at the existing published rate for new members.

We reserve the right to terminate the membership immediately and refuse services if we determine that the membership was acquired fraudulently during the application process. We will provide 30 days written notice by either U.S. Mail or electronic mail for any other cancellation, termination or non-renewal of your membership plan. If a membership is terminated or cancelled, at our discretion you may receive a prorated refund of the membership fees that have been paid based on the number of full months remaining on your membership.

You agree to promptly notify, or have your representative promptly notify us of the need for medical evacuation transportation specifying the nature of the injury or illness. Due to the nature of the services, a reasonable period of time is required to properly initiate your medical evacuation transportation, and you recognize that diligence is necessary to properly accommodate a medical emergency, meaning notice at the earliest possible moment to secure our assessment and to allow proper time to prepare the medical evacuation transportation. Failure to contact us for the medical evacuation transportation in a timely manner may result in a denial of services. Arrangements for medical evacuation transportation or travel for accompanying passenger must be made by us. You further authorize the primary medical evacuation provider's medical personnel to perform procedures and provide treatment as they deem necessary, both prior to and during the course of your medical evacuation transportation. We do not provide or control the provision of medical services to members. The primary medical evacuation provider will manage the logistics of all air medical transports, including the possibility of using an alternate medical evacuation transportation provider that is part of the primary provider's extensive worldwide network of accredited air ambulance should the need arise. Medical evacuation transportation from airports in Mexico and other countries typically are restricted or closed to private aircraft, including our primary medical evacuation provider's aircraft, from dusk until dawn which may delay an aircraft reaching a member until the following day.

Medical evacuation transportation is limited to two (2) transports per member each year. Your membership provides medical evacuation transportation only through the use of ground ambulances and aircraft assigned by us. Your membership does not reimburse or otherwise allow for transportation arranged by the member or provided through any other means (e.g., helicopter). Both the sending and receiving medical facility must be reasonably accessible by ground ambulance to transport the member to and from an airfield capable of accommodating medical aircraft transportation assigned by us. Air medical transport from remote areas or islands to a location with an airfield accessible to our primary provider's medical aircraft is not provided. Costs of evacuation from these remote areas to a location where we can provide service are the responsibility of the member.

Due to limited medical and laboratory facilities on cruise ships, if a member becomes ill or injured on a cruise ship, in all cases we will require a member to be admitted to a medical Facility on-shore for a thorough medical assessment before scheduling Medical evacuation transportation to another medical facility.

U.S. registered aircraft and personnel cannot be sent into countries where the U.S. State Department has issued travel restrictions, or to areas where civil aviation has been suspended or restricted, such as the result of a natural disaster or civil unrest. Your membership is subject to exclusion in these areas, as well as for any medical evacuation transportation that would be in violation of any Federal Aviation Administration rules or regulations or Presidential orders restricting air travel.

The patient and an accompanying passenger(s) are limited to one small carry-on bag each or less due to limited space available on medical aircraft. We will assist in arranging for additional luggage to be forwarded subject to a \$500 maximum per event.
